Dräger X-plore® 5500
Full Face Mask

Whether in the chemical, metal, or automotive industries, ship building, maintenance, supplies, or disposal: The Dräger X-plore® 5500 full face mask is the right solution for environments where not only increased respiratory protection is required, but a clear vision is mandatory.

Comfortable and secure fit
– Double sealing frame with threefold sealing edges
– More secure protection and tight fit

Large visor (180° angle)
– Optimal view during work
– Made from Polycarbonate or Triplex

Safe bayonet-type connector
– Simple insertion of the filters: Both filters are inserted from above and guided down to the connection point
– Cannot be fitted incorrectly

5-point harness
– Simple donning and doffing without trapping any hair

Compact „low profile" design
– Side positioning of the filters and flat construction
– Unrestricted field of vision

Dräger. Technology for Life®

Benefits

Safe and comfortable fit

A double sealing frame with threefold sealing edges offers safe protection and a secure fit for almost all face shapes. The mask body from durable EPDM ensures a great level of wearing comfort even during prolonged use.

5-point harness

The comfortable 5-point harness ensures that the mask is easy and quick to don. Additionally, the wide strap design prevents the development of pressure points on the head.

Large field of view due to 180° lens from PC or Triplex

The distortion-free lens with 180° wide angle guarantees a large field of view with excellent periphial vision. There is a choice of impact-proof polycarbonate material (with plastic frame) or scratch-proof and chemical-resistant Triplex glass (an extra stable stainless steel frame).

Easy recording, servicing, and management

One universal size simplifies logistics and storage. An inside barcode allows for ease of recording and servicing the mask inventory.

Efficient ventilation system

The efficient ventilation system with separate interior half mask ensures a fog-free lens and unobstructed view.

Large field of vision

The lateral location of the filters does not impede the field of vision of the wearer.

Versatile use

The Dräger X-plore® 5500 is equipped with two lateral bayonet connections for use of the comprehensive Dräger X-plore® bayonet filter series.
