Dräger

Dräger X-plore® 6300 Full Face Mask

The Dräger X-plore® 6300 is an efficient, low-cost full face breathing mask intended for price-conscious users not wishing to compromise comfort or quality. This full face mask is the successor to the Panorama Nova Standard, a mask which has proven itself over decades of use worldwide—redesigned and improved with fresh colors and an integrated bar code.

ST-7487/2005

Dräger. Technology for Life®

Benefits

Secure and comfortable fit

The mask body is made from durable and skin-friendly EPDM, with double-layer face seal and triple sealing edges which provides a secure and comfortable fit for virtually any face shape.

5-point harness

The comfortable 5-point harness does not only ensure simple and quick fitting, but due to the wide straps, it also prevents pressure points on the head.

Wide field of view

The distortion-free PMMA lens made from Perspex with 180° wide angle ensures a large field of view with excellent panoramic vision.

Easy maintenance and logistics

One size fits all, simplifying logistics and stocking. The barcode on the inside simplifies the recording and maintaining of the mask inventory.

Efficient ventilation system

The efficient ventilation system with separate inner mask prevents the lens from fogging and ensures good vision.

Many different uses

The Dräger X-plore® 6300 full face mask is equipped with a Rd40 connection (40mm threaded) and for use with the extensive X-plore® Rd40 filter range.

Accessories

Dräger X-plore® Rd40 Filters

Whether used in chemical industry or automobile industry, shipbuilding, metal processing industry, or by public utility services—for decades Dräger respiratory protection filters have been a synonym for experience and safety worldwide. They clean breathable air from contaminants in a low-cost and effective manner.
