

# Diesel Fuel

Order No. 81 03 475

C

## Application Range

|                           |                             |
|---------------------------|-----------------------------|
| Standard Measuring Range: | 25 to 200 mg/m <sup>3</sup> |
| Number of Strokes n:      | 5                           |
| Time for Measurement:     | approx. 2.5 min.            |
| Standard Deviation:       | –                           |
| Color Change:             | white → brown               |

## Ambient Operating Conditions

|                    |                              |
|--------------------|------------------------------|
| Temperature:       | 0 to 40 °C                   |
| Absolute Humidity: | ≤ 40 mg H <sub>2</sub> O / L |

## Reaction Principle

Undecane + I<sub>2</sub>O<sub>5</sub> = I<sub>2</sub>

## Cross Sensitivity

Various organic compounds with changing sensitivity are displayed.
